

PROUDLY MADE IN THE USA

## Full Bridge

### Microtech Connectors

#### Legend:

Miniature “microtech” connectors do not have pin (A, B, C, D) legends.

Various bridge connections and cable color codes are referenced from Connector Key Position, as indicated herein.

(Applicable notation and codes conform to Western Regional Strain Gage Committee’s recommendations.)

Note: Increasing tension strain in gages G1 and G3, and compression in gages G2 and G4, induces increasing signal of positive polarity.
